MOHAMMED IQBAL M

emial: mohammediqbalbe@gmail.com — phone: 7448861220

Objective

Results-driven Front-end Developer with medium expertise in React, HTML, CSS, and JavaScript. Proficient in Bootstrap and Tailwind CSS. Also a fresh Civil Engineer with knowledge in Primavera P6, Microsoft Excel, Power BI, MySQL, and basic understanding of fire and safety and SAP (MM module). Enthusiastic problem solver with a genuine passion for web development, seeking opportunities to make a positive impact in innovative companies.

Experience

FRONT-END DEVELOPER
XBI4 Pvt. Ltd. — India
2022 - July - Present

- Collaborated with cross-functional teams to design, develop, and implement visually appealing and user-friendly web applications using React, HTML, CSS, and JavaScript.
- Integrated UI components and optimized web pages for enhanced performance and responsiveness.
- Ensured consistent and seamless user experiences across different browsers and devices.
- Actively participated in code reviews and contributed to continuous improvement initiatives.
- Successfully implemented SQL queries to fetch, update, and manage data from the database, enhancing application efficiency.
- Developed Lambda functions using AWS SAM for scalable and cost-effective solutions, improving backend functionality.
- Proficient in writing stored procedures in Database Management System to handle complex database operations efficiently.
- Leveraged Node.js to develop server-side logic for web applications, contributing to a robust and dynamic user experience.
- Integrated API endpoints in front-end websites using AWS Amplify, enabling seamless communication between the front-end and backend services.
- Managed environment variables in AWS for SAM models, ensuring secure and efficient handling of sensitive data.

In-House Project Experience

- Collaborated with a team to create CRM Customer Engagement App, streamlining the sales process and enhancing customer relationship management.
- Contributed to the back-end development of the Film Management Project, leveraging Node.js and basic understanding of store procedure writing to facilitate global access for all users.
- Implemented features for film management, enabling users to efficiently manage and organize film-related data, enhancing the overall user experience.
- Led the development of the Employee Portal, maintaining employee data, and providing a user-friendly interface for managing time-off requests and master data.
- Utilized Bootstrap and responsive design principles to ensure seamless access and user experience across various devices.
- Demonstrated proficiency in SQL query writing to fetch and display relevant employee information on the portal.

Personal Projects

JS Beginner to Advance Level

- Developed a series of projects to enhance JavaScript skills progressively.
- Created a modal and dice game using basic JavaScript concepts.
- Designed responsive UI cards using HTML, CSS, and JavaScript.
- Developed an e-commerce website for an online platform, incorporating advanced JavaScript functionalities.
- Built a feature-rich to-do list app using React, showcasing understanding of state management and component interaction.

E-commerce Website

- Independently designed and developed an e-commerce website.

Education

BACHELOR OF ENGINEERING IN MECHANICAL (SPECIALIZATION IN AERO-NAUTICAL)
Dhanalaskshmi Srinivasan Engineering College, Preambular, Trichy
June 2022

Skills

Development

- React: 90% (Advanced)
- HTML: 85% (Advanced)
- CSS: 85% (Advanced)
- JavaScript: 90% (Advanced)
- Bootstrap: 70% (Intermediate)
- Tailwind CSS: 75% (Intermediate)
- Node.js: 75% (Intermediate)
- AWS Lambda: 70% (Intermediate)
- AWS SAM: 70% (Intermediate)
- Front-end Website Hosting using AWS Amplify: 80% (Intermediate)

Database

- SQL Query Writing: 80% (Intermediate)
- Store Procedure Writing: 60% (Novice)

Additional Skills

- Primavera P6

- Microsoft Excel, Word, PowerPoint

- Power BI

- SQL Query Writing in MySQL Workbench

- Basic understanding of fire and safety

- Basic understanding of SAP (MM module)
